

ISC | DISASTER HOUSING

Following a disaster, citizens in a community may be displaced from their homes due to damage, evacuations, or other factors. The FEMA Individuals and Households Program (IHP) provides financial help and direct services to assist with housing needs that are not covered by insurance or other sources. This includes:

- Lodging expense reimbursement for short-term stays in hotels.
- Rental assistance for temporary housing
Or direct temporary housing in the forms below:
- Multi-family lease and repair
- Recreational vehicles (RV)
- Manufactured housing unit (MHU)
- Direct lease
- Money to help repair or replace your primary home.
- Permanent housing construction.

Other Individual Assistance Programs can help support survivors with unemployment assistance, crisis counseling, and legal services. Additionally, disaster survivors can receive assistance in the form of federal disaster loans administered by the Small Business Administration.

ABOUT US

Integrated Solutions Consulting is a professional services firm focused on developing and implementing comprehensive crisis and consequence management solutions. We are a team of innovative problem-solvers that combine experience and evidence-based knowledge to deliver practical, best practice results across multiple industries to make communities safer and more resilient.

don't have
insurance, proceed
to step 4.

4.

Apply for
assistance in
person at a
Disaster Recovery
Center (DRC) or
by phone or mail.

ISC DELIVERS UNPARALLELED EXPERTISE IN DISASTER HOUSING

Following a disaster, ISC's team of technical specialists will deploy to help assess damage to both public and personal property. Recovery projects can take extensive amounts of time, energy, and funding. There are a variety of funding sources available to communities, private non-profit organizations, businesses, families, and individuals who have been affected by the disaster; however, it may take considerable effort to identify and obtain proper funding sources, coordinate these funding sources, and implement funded projects. At ISC, we help our clients navigate funding programs to expedite the recovery process and help build resiliency.

ISC's Response in the Gulf

Over the past 15 years, ISC has deployed numerous personnel in response to the threat of Gulf Coast hurricanes. Team ISC implements strategies to conduct catastrophic response planning addressing the forecasted catastrophic need for individuals and special populations. ISC reviews, assesses, and evaluates regional emergency doctrine, as well as the findings of recent hurricane exercises, to identify methodologies to integrate Federal recovery programs into existing State systems and procedures in order to deliver critical immediate needs.

▶ OUR CAPABILITIES:

- Mass Care & Sheltering Support
- Disaster Care Management
- Individuals & Household Programs
- Disaster Unemployment Assistance
- Voluntary Agency Coordination
- Cost Recovery Accounting & Controls
- Evacuation Planning & Support
- Disaster Housing Operations
- Environmental & Historic Preservation Consultation

Our Innovative Solutions

Drone Technology

Cutting-edge UAV technology and software provides enhanced analysis and mapping of hazards. The information gathered by our FAA-certified UAV pilots generates enhanced disaster data analysis and mapping and provides a unique perspective on current and future challenges.

Odysseus GMT

The Odysseus Grant Management tool provides users with a ready-to-use or customized disaster grant management system that allows your organization to track, administer, and report grant funding.

Damage Assessment Tool

ISC has mastered the development of 360-degree panoramic damage assessments. Our team creates high-level detailed, 360-degree panoramic damage assessments in a matter of minutes. This technology establishes a detailed historical record to document damages and justify cost estimates.

Odysseus CPM

The Odysseus Compliance & Performance Metrics provides data-driven assessments that systematically evaluate the compliance and/or performance to various governmental and industry recognized programs and standards.
